As your IT infrastructure evolves, it is common for documentation to be overlooked.

A Kinetics engineer can perform an onsite inspection of your network, including servers and workstations, to provide a full set of site documentation notes.

The inspection will also enable us to highlight areas where your current setup could be optimised for better overall performance.

***Check out [www.kinetics.co.nz](http://www.kinetics.co.nz) or phone 379 8200 today!***
